DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection necessitated by the amendment to claim 1. The amendment to claim 1 has overcome the previously presented rejections of claims 1-3 and 5-10 as being anticipated by Freedland (U.S. 5,908,433). The amendment to claim 5 has overcome the previously presented objections to claims 5, 8, and 9 in the office action mailed 1/5/2007.

Terminal Disclaimer

The terminal disclaimer filed on 4/18/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. patent 6,669,699 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Collins (U.S. 862,712). Collins discloses a tool comprising a longitudinal shaft (1) having a distal end and a proximal end, a clamshell-style trial head (2) at the distal end of the longitudinal shaft, the head having a proximal portion, the trial head being laterally separable from the longitudinal shaft, and a head separator (4) having an engagement portion (5), the engagement portion of the head separator being longitudinally movable relative to the longitudinal shaft and engagable by

the longitudinal movement with the proximal portion of the trial head wherein when the engagement portion of the head separator engages the proximal portion of the trial head, the trial head laterally separates from the longitudinal shaft (see lines 52-56).

Allowable Subject Matter

Claims 12-15 are allowed.

Claims 2-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
